OREGON REPUBLICANS

Score a Substantial Victory Yesterday.

LORD ELECTED GOVERNOR

Populists and Democrats Meet Their Waterloo—Protection the Issue.

PORTLAND, Or., June 4.—The most exciting election in the history of the state took place today. Lord (Republican) for governor is undoubtedly elected by a large plurality. The entire Republican state ticket is probably elected, with the possible exception of Irwin, superintendent of schools. The legislature will be very close and the Populists may hold the balance of power in the senate, though the Republicans claim they will have a majority in both houses. Herman (Republican) is returned to congress from the First district by from 1000 to 2000 majority. Ellis (Republican) is in the lead in the Second district, but the greater part of the district is cut off by floods and returns will not be received for several days.

PORTLAND, Or., June 4.—Based on a few scattering returns received up to 10.30 Lord's (Republican) plurality for governor will not fall short of 5000, and may reach 10,000.

PORTLAND, Or., June 4.—Out of 300 votes counted in this city, Judge Lord, Republican, for Governor, received 180. If this ratio is maintained throughout the state, he will have a clear majority over all other candidates, and a plurality of more than 15,000. The entire Republican state ticket is elected. The vote for Ellis, Republican, for congress, in the second district, is slightly below that of governor, but his plurality will not be short of 2000. Hermann, Republican, for congress in the first district, will have at least 1500 plurality. George P. Frank, Republican, for mayor, is elected by at least 1000 plurality.

NICARAGUA CANAL.

Impossible to Force Congress to Do Anything.

TACOMA, Wash., June 4.—The Evening News publishes a number of letters from United States senators, in reply to the question, "Why is it not possible for senators and representatives from all western states to unite and force congress in passing promptly some bill by which immediate construction of the Nicaragua canal with American labor would be assured?"

Senator Perkins expressed the opinion that the canal will be built by private capital, and that Senator Morgan told him that the pending bill will undoubtedly be passed at this session.

Senator White says it impossible to force congress to do anything by such a combination, and he does not believe that American workmen can be induced to go down there.

Peffer says it is impossible to get Western Republicans to agree to unite, and that congress is an inert body, and that the old moss-backs in both parties are barnacles that are hard to shake off.

Senators Shoup, Mitchell, White, Dolph and Squire favor the scheme.

CROP REPORT.

California Weather Bureau Report for Last Week.

SACRAMENTO, June 4.—Director Barwick of the California Weather Bureau, in his crop report for the week ended June 4th summarizes as follows: The excess of moisture and deficiency in temperature and sunshine has been very detrimental to hay that was cut and cherries that were ripe, but have greatly benefited all summer crops, pasturage and late sown grain, which plainly shows that the continual damp, cloudy weather of the past three weeks have been more beneficial to the crops of the state than otherwise, and has caused wheat and barley to be cut for grain that would otherwise have been cut for hay. Sunshine, warmth and drying winds are now badly needed over all portions of the state, or else a vast amount of hay will be a total loss.

STILL WALKING.

One Division of the Industrials Reach Bakersfield.

BAKERSFIELD, June 4.—Ninety-three of the Andra division of the industrial army arrived today and camped on the Kern island canal. They appear to be a fair class of men, principally mechanics, who claim they cannot obtain labor at any rate. They say they are destined for Washington, but for their homes in the eastern and western states. They will receive ample provisions if they behave themselves and will be sent further south. Two hundred of the Barker contingent will arrive tonight, but will not be allowed in town.

A Close Race.

TROY, N. Y., June 4.—Fully 15,000 people witnessed the events at the annual meet of the Troy bicycle club. Sanger and Johnson were the only scratch men in the mile handicap and as it was the first time that these two famous riders ever met on equal terms the result was watched with great interest by wheelmen all over the country. Johnson beat his western rival by a short yard.

Cordage Employes Strike.

SAN FRANCISCO, June 4.—Two hundred employes of Tubbs' Cordage Works went on a strike today. About the 1st of March wages were cut from 20 to 30 per cent, but on the promise that their wages would be restored the employes kept at work until this morning. The company has several large contracts to fill, and the strikers hope that these will force the company to restore wages to the old standard.

Fire at Santa Maria.

SANTA MARIA, June 4.—A $25,000 fire at Guadalupe this afternoon burned Campodonico's blacksmith shop, Balzorio's saloon, Bondatteli's saloon, the drug store building, Lafranchi's shoemaker shop and Mrs. H. Dalcini's private residence. Total insurance about one-third of the loss. The fire originated in the rear of the blacksmith shop.

The Millard Party Well.

LOS ANGELES, June 4.—J. J. Fife, who has just returned from the region in which the Millard party was supposed to be lost, says he saw the party five days ago, and all were well. They are prospecting near the Lost Horse mine.

THE OREGON FLOOD.

The Water Still Rising—Much Distress in Portland.

PORTLAND, Or., June 4.—The river reached the thirty-two foot mark this evening and is still rising. Hundreds of persons whose places of business are submerged have moved out and established new temporary places. In the lower portion of the city, where a great many poor persons live, conditions are most deplorable. Great numbers have been driven out by the invading waters and have taken temporary refuge wherever shelter can be found. Much distress already prevails. The temperature has fallen ten degrees at Baker City during the past twenty-four hours, from which it is surmised the temperature has fallen over the country drained by the Columbia and tributaries, in which case there is a possibility of cessation of the rise.

THE MEEKS MURDER.

The Taylors Offer to Surrender and Stand Trial.

LINNEUS, Mo., June 4.—The latest turn in the chase of the Taylor brothers, who killed the Meeks family, is a letter from W. P. Taylor to parties in Browning. This is confirmed by several reliable men who have seen the letter and say positively it is in W. P. Taylor's hand writing. The contents of the letter have not been made public, except a small part, and that is about as follows: "If the authorities will call in all pursuers and dogs the Taylors will surrender and stand trial." They claim they are innocent and can prove it if given a chance. This is believed by many to be a scheme to allay suspicion and stop the hunt after the fugitives so they can escape.

THE STRIKE SETTLED

AN AGREEMENT SATISFACTORY TO ALL PARTIES.

Governor Waite Calls Out the Militia to Help the Sheriff Restore Property.

CRIPPLE CREEK, June 4.—The strikers have spent today in perfecting their defenses. Their forces have been increased today by 300 men from Pueblo. The miners have loaded beer kegs with dynamite, scrap iron and railroad spikes, and have placed them on the crests of Globe hill and Battle mountain. The defensive movements of the strikers have been decided upon, and are about as follows: The mounted scouts, who are spread out in all directions, upon discovering the advance of the deputies, will hasten to camp with the information. A prearranged signal will be sounded on the steam whistle at the Pikes Peake mine, when the strikers will take their designated positions. Skirmishers will fall back slowly, keeping the deputies engaged until they reach the barricades erected at the foot of Bull hill. Behind the barricades the strikers will make a stand, defending themselves with guns and bombs. If driven from their barricades they will hasten up the slope to the fort. Should the deputies follow them the dynamite mines which have been planted every few yards, will be exploded.

DENVER, Colo., June 4.—The strike at Cripple Creek appears to have been settled tonight at a conference in this city. Particulars are hard to get. The terms so far as learned are that the owners will pay $3 for eight hours work and may employ both union and nonunion men.

DENVER, June 4.—The strike at Cripple Creek has been settled. Late this evening at the conference between Governor Waite, J. J. Hagerman and David H. Moffat, an agreement which is satisfactory to all parties was arrived at. As soon as the party assembled Governor Waite announced that he was authorized to act for the miners, and consideration of many points was begun. One point caused considerable complication, and that was the time allowed for luncheon. The miners demanded thirty minutes, they to be allowed pay for the time.

The articles of agreement provide that the miners shall work eight hours a day with twenty minutes for lunch, that they be paid at the rate of $3 per day, and that the mine owners employing men shall not discriminate against either union or non-union miners. At the conclusion of the conference Governor Waite issued a proclamation calling upon all people in El Paso county who were forcibly holding the property of others, and who were bearing arms in violation of law, to deliver up such property and to lay down their arms. The entire state militia is called upon to go to Cripple Creek and aid the sheriff in restoring order.

Flood Bound Passengers Robbed.

HELENA, Mont., June 4.—Two men went through flood bound coaches near Thompson on Saturday and at the point of revolvers compelled the passengers to give up their money and jewelry. They obtained about $150 in cash and several gold watches.

Strikers Killed.

SULLIVAN, Ind., June 4.—Parties who have just come in from Farmersburg report that the militia fired upon the strikers and killed four men. News has just been received here that strikers are burning the bridges behind the coal trains.

Coxey Will Accept.

MARTHON, O., June 4.—Jacob S. Coxey, the incarcerated reformer, has accepted the nomination for congress in the McKinley district of Ohio in a letter to the People's Party committee, dated at Washington, "Parlor 67, U. S. Jail."

Damage From Rain.

LODI, June 4.—The rains have damaged hay, fruits and grain. If the rain continues all hay in this section will be ruined.

According to the Century Dictionary there are about 1000 languages in the world.

BABIES AN OBJECT

Every Infant Draws Its Per Capita of $265.63.

500 BORN WITHIN THREE MONTHS

The Government Commences the Disbursement of $6,500,000 to Cherokees.

TAHLEQUAH, I.T., June 4.—The disbursement of $6,500,000 to the Cherokee Indians began here today. It will take the treasurer two weeks to complete the payments at this station. One million and six hundred thousand dollars now reposes in the treasurer's office and 100 members of the Cherokee guards, the surest shots in the service, patrol the grounds and principal streets of the town. Should the Daltons or any gang attempt to carry away the treasure they would be riddled with bullets before they could walk across the street. None but persons of Cherokee blood are allowed in the state house while payment is going on. All day Friday, Saturday and Sunday the Cherokees began pouring in, most of them camping out of town.

Among the crowds were Cherokees of all ages. Every infant draws its per capita, $265 63, the same as any adult. It is said there have been 500 Cherokee babies born within the last three months, some of them are not over 24 hours old, but will come in for their share. The Indians are being hard pressed by their creditors. Some owe to traders more money than they received, but most of them are ignoring creditors and holding fast to their gold and silver. Others pay only a small percentage of their debts.

CENTRAL PACIFIC DEBT.

Strong Protest Against a Funding Bill.

WASHINGTON, June 4.—Representative Maguire of California appeared before the house committee on Pacific roads today, making a strong protest against any funding bill or other arrangement which would release the estates of Huntington, Stanford and others from personal liability to the government for debts of the Central Pacific. At the request of Representative Maguire it was arranged that himself, Ex-Congressman Sumner of California and other members of the state delegation in congress should address the committee on Thursday.

Maguire took the position that the failure of the Central Pacific to pay the debt to the government was due entirely to the diversion of the earnings to the pockets of a syndicate. He recommended that the government should proceed by foreclosure or by taking charge under the conditions of the franchise, and appeal to the courts to secure the remainder from the Huntingtons, Stanfords and others.

The State Bank Bill.

WASHINGTON, June 4.—The final vote on the state bank question will be taken at 4 o'clock Wednesday. This conclusion was reached after a conference in Speaker Crisp's room today. It is generally believed the bill will pass.

The Markets.

SAN FRANCISCO, June 4. — Wheat—Easier; December, $1.01½.

Auberry News.

Haycocks dot the hillsides.

Auberry has been visited by a sand storm and three rains during the past two weeks.

Potato plants are in bloom and a good yield is expected.

Some of the days have been moderately hot, but as a rule Auberry weather is delightfully cool.

Mr. and Mrs. J. S. Patterson have gone to the mountains in search of employment.

At the school meeting held on Friday last Peter Spears, J. Banks and H. Banks were elected trustees.

There is some talk of having a political picnic in Auberry between now and election. The program will include dinner and speeches by the candidates.

Rev. Collins Makes a Correction.

EDITOR REPUBLICAN:—Please allow me to say that at no time on Saturday last was I in the Fifth ward at the primary; at no time have I taken "a carriage load of darkies" to any polling place in this city or county; at no time have I ever had or manifested any interest in the factional fight said to be going on. I was beginning to hope that the Expositor had ceased publishing things about me in which there was not the least grain or shadow of truth. So far as its article "Peace Out of Sight" bears upon me, it is utterly false. J. H. COLLINS.

"The American Protectionist does not seek to evade the legitimate results of his theory. He starts with the proposition that whatever is manufactured at home gives work and wages to our own people, and that if the duty is even put so high as to prohibit the import of the foreign article, the competition of home producers will rapidly reduce the price to the consumer.—James G. Blaine.

The Democratic administration will be useful in the way of establishing an important precedent. It is going to show just how much tribulation the country can go through and survive.

The boy preachers and other youthful "phenomenons" are completely laid in the shade by that precocious young Bill of Professor Wilson. Young as the Wilson progeny is he has kicked up an awful disturbance in the United States senate and set the whole country by the ears.

The present administration ought to rouse itself to the crying need of the country long enough to pass an act rigidly restricting foreign immigration, even if it fails to perform another useful service to the country. It could hardly do anything which would evoke more earnest and general approval.

We tremble for the safety of Republican institutions. A Fresno debating society, after duly cussing and discussing the matter, has decided that England is better governed than the United States, and may the Lord have mercy on our souls.—Oakland Times.

That is not necessarily very much against our government, nor very much in favor of England's, for that matter, considered in connection with the present condition of things in this glorious republic.

Chris Buckley is said to have announced his intention to assist San Francisco Republicans in order to "get even" with his Democratic enemies. This is an instance in which assistance is of very doubtful advantage. Christopher cannot be prevented, of course, from seeking revenge in any way he chooses, but it must be fully understood that he is to receive no consideration from Republicans. Any other understanding would very naturally and should very materially lessen the chances for party success in that city.

Colonel Breckinridge is evidently one of those peculiar characters, not infrequently met with, who long and successfully play the part of the hypocrite until they come to believe in the genuineness of their spurious claims to honesty and respectability. It is practically impossible to account for the assurance of some people on any other ground. They apparently do not understand themselves, and hence do not comprehend the estimate which the public places upon them. There are few communities which do not have their Breckinridges of a modified type.

Nearly one thousand acres of the crown lands of Hawaii have been taken up by natives in small parcels. Most of the locators intend to grow coffee. The fact that ambition to own and develop land has been aroused in the Kanaka is regarded as one of the best signs of the success of the new policy of the provisional government.—Chronicle.

Not according to recently popularized theories in statecraft, which hold that the "crown," or the government, should own all the land, and should be the landlord of the people. According to the reformers the natives of Hawaii are giving evidence of a disposition to return to barbarism when they undertake to become private land owners.

Senator Perkins has written to a Los Angeles Republican, stating that so far as he is concerned, he will not be a candidate for the remainder of Stanford's unexpired term in the senate unless a majority of the county conventions or the state convention desire it, and concludes as follows: "I do not intend to be a party to any contest before the legislature such as have occurred in the past. The adoption of this plan will hurt no one, will bring the selection near to the people, and will be near the party." This being the case, conventions which desire that Mr. Perkins shall retain his place in the senate will signify their preference.

Attorney General Hart has announced himself as a candidate for the Republican nomination of governor, and thereby has given satisfaction to hosts of his political friends, who recognize not only his patriotism, but his ability and the important part he has played for the welfare of the Republican party of the state and nation. General Hart announced his candidacy but a few days ago, yet the news has been heralded throughout the state, and is being hailed everywhere with expressions of the liveliest satisfaction by those acquainted with the man and his record.—San Francisco Wasp.

This is a glaring example of the effect of running a newspaper on a single standard basis, with truth demonetized and honesty repudiated. General Hart has no more chance of being nominated for governor than Carl Brown has of leading an honest life. Leaving the rest of his official record out of question, his connection with the looting of the Pacific bank will settle his case with all honest citizens.

It is gratifying to note that the Examiner has finally found something in Fresno county which it can commend. It is a pleasing change from the unwarranted criticism which the San Francisco dailies have been so unstintedly bestowing on Fresno and Tulare counties for more than a year past. In its issue of yesterday the Examiner again commends the navigable canal proposition in a way that will be appreciated by all well wishers of that important enterprise. It says: "It is gratifying to find that the merchants and land owners of Fresno are taking up the project of a canal for the San Joaquin valley in earnest. The energy thus far shown by the Business Men's Association makes it within reason to hope that the project will become an accomplished fact in the near future. The meeting held on Saturday showed a practical kind of enthusiasm that makes it likely that the work of construction will soon be under way. The arrangements for surveying the route are now made, and while it is practically impossible to raise the money outright to do the work the subscriptions in the form of teams, tools and labor will probably be enough to insure the completion of the canal. This is the right way to go to work. Cities or districts that wait for congress or the state to furnish the money and help them out do not fare very well. But those that have the energy to go ahead and do work for themselves have no trouble in bringing in trade and industry, and they usually get the favors in the way of public improvements that are denied to the places that wait for somebody else to help them. There is no doubt that a canal from the head of river navigation to Bakersfield would prove a money saving enterprise to the valley through which it would pass. The great need of that region is cheap transportation. Its great drawback is the heavy toll that is put upon the producer for taking his goods to market and the heavy freight charges he must pay on what he buys in return. The country within reach of river navigation gets cheap transportation, and feels its benefits. The southern portion of the San Joaquin valley can get it, too, if it constructs the projected canal."

P. P. P. purifies the blood, builds up the weak and debilitated, gives strength to weakened nerves, expels diseases, giving the patient health and happiness where sickness, gloomy feelings and lassitude first prevailed.

For primary, secondary and tertiary syphilis, for blood poisoning, mercurial poison, malaria, dyspepsia, and in all blood and skin diseases, like blotches, pimples, old chronic ulcers, tetter, scald head, boils, erysipelas, eczema—we may say, without fear of contradiction, that P. P. P. is the best blood purifier in the world, and makes positive, speedy and permanent cures in all cases.

Ladies whose systems are poisoned and whose blood is in an impure condition, due to menstrual irregularities, are peculiarly benefited by the wonderful tonic and blood cleansing properties of P. P. P.—Prickly Ash, Poke Root and Potassium.

Springfield, Mo., Aug. 14th, 1893.—I can speak in the highest terms of your medicine from my own personal knowledge. I was affected with heart disease, pleurisy and rheumatism for 35 years, was treated by the very best physicians and spent hundreds of dollars, tried every known remedy without finding relief. I have only taken one bottle of your P. P. P., and can cheerfully say it has done me more good than anything I have ever taken. I can recommend your medicine to all sufferers of the above diseases.

Sequin, Tex., January 14, 1893.
Messrs. Lippman Bros., Savannah, Ga.: Gentlemen—I have tried your P. P. I have taken five or six bottles and feel confident that another course will effect a cure. It has also relieved me from indigestion and stomach troubles. Yours truly,

A SUMMER GOWN,

571—LINVILLE WAIST. Sizes, 34, 36, 38 and 40 Inches Bust Measure

A stylish and jaunty design, appropriate either for a fancy waist to be worn with different skirts, or combined with the "Eastbourne" overskirt and any style of gored skirt it completes a very pretty costume. The outer part of the waist is slightly full at the bottom over a fitted lining having all the usual seams. The yoke in the back is finished straight across at the bottom, and the front is cut to form three points; but back and front can be shaped alike if preferred. The lining should be fastened down the middle in the usual way, and the outer front fastened on the left shoulder and under the arm. A fancy yoke of jet or lace with a contrasting color for the lining is very effective. Any of the seasonable fabrics in wool or silk can be used for this waist, and it can be worn with any style of skirt.

A special illustration and full directions about the pattern will be found on the envelope in which it is enclosed.

574—Eastbourne Overskirt. Sizes medium and Large.

This charmingly graceful model is cut in circle shape and has a bias seam in the back; it can be draped over any gored skirt trimmed with little narrow ruffles or a facing of the material; but care must be taken to make this facing deep enough so the wind will not betray the unsightly sham. It is appropriate for all materials that drape gracefully, and the trimming can be chosen to correspond. Our illustration is of blue-gray crepon and silk, and the trimming is Venetian guipure underlaid with black satin. A special illustration and full directions about the pattern will be found on the envelope in which it is enclosed.

Republican Coupon Pattern Order,

Entitling the holder to One Demorest Pattern

Fill in below the number and size of the pattern you desire, and mail this coupon to **Demorest's**, 15 East 14th Street, New York, with four cents in stamps or pennies, to pay for mailing, handling, etc. Be sure to give your name and full address, and choose one of the sizes that is printed with each design.

Notice of Sale of Real Estate Under Execution.

In the Justice's Court of Third Township, County of Fresno, State of California.

BY VIRTUE OF AN EXECUTION ISSUED out of the Justice's Court of the Third Township, County of Fresno, State of California, dated the 12th day of May, 1894, in a certain action wherein O. Scribner, as plaintiff, recovered judgment against L. F. and E. C. Winchell, a copartnership, consisting of L. F. Winchell and E. C. Winchell, defendants, on the 11th day of December, 1893, for the sum of $215 89, besides interest and costs, I have levied upon the following described property:

THE NEW HOSE WAGON READY

Loquacious Trustee Spinney Is Sat Upon by Chairman Church.

City Trustees Church, Spinney, Herrington, Adams and Craycroft were all promptly on hand at the fortnightly meeting last evening.

Paul J. T. Mayer's application for a retail liquor license at H and Kern streets came up for second reading. The bondsmen are Mayer himself in $5000 and William Degen and John Borello in $2500 each. The petition was granted.

Poundkeeper Crow reported as follows for May: Dogs on hand May 1st, 6; captured, 62; total, 68. Redeemed, 4; sold, 6; destroyed, 44; on hand, 8. Horses captured, 2; redeemed, 1; destroyed, 1. Sheep captured, 2. The sheep were retaken by violence by a Portuguese, who was fined $10 by Recorder Clark. Cash received, $6.50; city's portion, $3.25.

On motion of Spinney the report was received and filed.

City Recorder Clark reported fines imposed $45, collected $20. The report was received and placed on file.

City Marshal Morgan furnished a lengthy report on licenses, of which only the footings were read. The report showed regular licenses collected $1559.50, fractional licenses $44.47, total collections $1603.97. The report was received and placed on file.

The committee on police asked through Mr. Adams for further time in investigating the charge against Special Officer Ragsdale. On motion of Spinney the request was granted.

City Attorney Risley produced a copy of an ordinance he had drafted reducing the license on billiard tables from $5 to $2.50, and striking out the license on astrologers, barber chairs and bootblack stands. The ordinance was read and filed.

The following bids were approved and ordered paid:

General fund—R. L. Epperson, hay, $36.10; Jack Robinson, $11.50; T. G. Hart, chemicals, $1.20; J. R. McKay, shoeing, $4; George Larsen, shoeing, $6; L. W. Moultrie, rent, April 15th to May 15th, $30; San Joaquin Lumber Co., lumber, 75 cents; F. T. Hilton, blacksmithing, $3.75; E. M. Packard, drayage, $1.25; South & Fentem, stationery, $1; P. S. Leslie, brooms, $1; C. H. Riege, stationery, $5.85; Robert Erwin, hauling manure, $9.90; National Fuel Co., fuel, $70.60; James Graham, veterinary services, $2; J. W. Shanklin, stationery and stamps, $4.50; L. Hansen, blacksmithing, $10; C. C. Elliott, salary account, $100.

Street fund—John Heinrich, labor, $4.50; S. E. Miller $12.25, A. R. Brooks $8.75, C. C. Conally $4, Elmer Cochran $4; I. H. Walton, sweeping streets, $58.85; M. Bilby, salary, $50; John Heinrich, sweeping streets, $59.84; John Griffin, labor, $14; Louis Einstein & Co., supplies, 25 cents; Robert Erwin, care of park, $40.60; G. M. Bonnell, shears, 50 cents; Fresno Water Company, water, $439.65; San Joaquin Lumber Company, lumber, $18.40; R. E. Stevens, labor, $23.50; S. B. Tombs $8.50, J. M. Collins $4, A. T. Stevens $77, Robert Erwin $1.75, Boltinghouse & Ziegler, sprinkling, $305.20; H. G. Spaulding, drayage, $1; Kutner-Goldstein Company, supplies, $4.80; E. Egel, drayage, $1; M. R. Madary, stakes, 50 cents.

Sewer Fund—S. E. Miller, labor, $3.50; J. M. Collins, labor, $12; R. E. Stevens, $15; S. B. Tombs, $14; M. Bilby, salary, $50.

Before the bills were approved Spinney caused Street Superintendent Bilby to writhe uneasily in his chair by moving that the $50 due him for salary on the street fund be disallowed on the ground that the Superintendent had failed in his duty. He made reference to the pile of brick lying unremoved opposite the Hughes hotel, and wanted to know why it had been suffered to remain there.

Mr. Bilby said he had no desire to make enemies for the board. He had suffered inconvenience from the obstructions at the place indicated, but understood that Mr. Einstein was about to proceed with the rebuilding at once and would use the bricks.

Spinney resumed his lecture on the duties of police officials, but was cut short by Chairman Church, who ruled his motion out of order. A motion to approve the finance committee's report as a whole was then put and carried.

The street superintendent was instructed to request Mr. Einstein to have the obstructions removed within twenty days.

Louis Gundelfinger appeared before the board to make a statement with reference to an overflowing cesspool on his property, at Mono and L streets, of which complaint had been made. Mr. Gundelfinger stated that he had procured from J. O. Shepard, engineer, an opinion which was read to the board by the clerk. The opinion stated that it was impossible to make connection with the existing sewer, and that there should be a sewer on Mono street with which this and other house property in the vicinity could be easily connected. Mr. Gundelfinger went on to say that he had done everything in his power, and gone to considerable expense to remedy existing evils, but the only sewer in this section is on Kern street. A sewer on Mono would help all the property from Inyo to Ventura, and he thought partial improvements of this kind could be made out of the regular fund from year to year. Something is due to the taxpayers and property owners on the south side of the city.

Chairman Church thought the board ought to test the people on a vote for a sewer alone. The adverse vote last time had been by reason of the large amount asked for, $75,000, and the city engineer had made a general estimate that the additional sewerage could be constructed for $34,000.

On motion of Craycroft it was ordered that the preliminary steps be taken to complete the sewer system, the chairman remarking that the year ends on July 1st, and it will take all the time up to then to get ready. The matter was also referred to the city engineer and city attorney to report at the next meeting. Spinney voted in the negative on the general proposition.

W. S. Boyd, photographer, petitioned for permission to erect a tent twelve feet square between two iron houses on K street, between Mariposa and Tulare, for photographic purposes.

Spinney pointed out that this came within the fire limits, and moved that the petition be denied. Herrington seconded it and the motion was carried.

An apologetic letter from William Robinson in reference to heated language used by him to Trustee Craycroft was read and filed, Mr. Craycroft expressing his willingness that the matter should end there.

Poundmaster Crow was granted a six weeks' vacation on his undertaking to find an efficient substitute.

Chief of the Fire Department T. G. Hart informed the board that the new hose wagon will be ready in a few days, and the next thing in order is to get a team and harness.

Spinney began to talk on the question, when he was cut short by the chairman, who asked for a motion, and said he was not going to stay there to listen to gabble. Business should be conducted in a proper way.

Craycroft moved to refer the matter to the fire and water committee, to report at the next meeting. Herrington seconded, and the motion was carried. The board then adjourned.

Spinney soon recovered his good humor, but thought the chairman had sat on him too hard and often to be pleasant.

VENUS AND MARS.

ANOTHER WARRIOR SUCCUMBS TO THE GODDESS.

Herman C. Eggers in the Toils of an Eastern Adventuress—Is it Blackmail?

Major Herman C. Eggers, who went east on a business trip some weeks ago, is in trouble. The Major is gallant, as becomes every true soldier, and it is this gallantry, no doubt, that has involved him in the serious predicament in which he finds himself. The following press dispatch from New York explains the way he got into trouble:

"NEW YORK, June 2.—Herman C. Eggers, a wealthy California business man, has been having a gay time of it in New York lately, according to his own account. He is stopping at the Coleman house, and thus far he has managed to lose his pocketbook, containing several hundred dollars, besides being served with papers in a suit for $5000 for stealing the affections of Mrs. Lillie Brown from her husband.

"Lawyer Leonard has begun the suit in the superior court. He says his client's name is Charles W. Brown, and that he is a traveling salesman for a Courtland street house. The Browns boarded on West Thirty-sixth street, and the husband was in Boston on May 20th, when a telegram from Charles Hall, a friend who boarded in the same house on West Thirty-sixth street, brought him home. Hall said he had seen Mrs. Brown enter a house on West Twenty-seventh street and a man was with her.

"According to the lawyer's story the wife confessed that she met Eggers on Broadway and accepted his invitation to supper at Bristol's on Sixth avenue, and finally accompanied him to the West Twenty-seventh street house.

"Mr. Eggers said today that he had met Mrs. Brown, and admitted having taken the woman to the house. He is the junior partner in the firm of Eggers & Co., 214 California street, San Francisco, and also owns a vineyard at Fresno. Mrs. Brown is short and plump, and dark-haired, and only 21 years old."

The Major's relatives in San Francisco believe Mrs. Brown is an adventuress, and say that the suit for damages is merely an attempt to levy blackmail. They have received a telegram from the Major, in which he says there is no trouble, which leads them to hope the account in the dispatch is exaggerated. The family feel the publicity given to the story all the more, as the Major's sister, Miss Lily Eggers, is to be married in a few days.

A Sweet University Miss Learns Something About Chickens.

From the Stockton Mail.

A highly accomplished young lady who knows all about Greek and Latin, and is well advanced in one of the universities of the state, created a sensation last evening at the home of a Stockton friend whom she is visiting. She ran into the house breathless with excitement, and exclaimed:

"Dear me, what do you think has happened?"

"What?" exclaimed all hands, springing up in alarm.

"There's a hen out here has got ten little chickens!"

"Well?" inquiringly.

The young lady hesitated, evidently nonplussed over the fact that her statement had created no surprise, and then asked dubiously:

"Isn't it rather unusual for a hen to have so many?"

"Why, no," said the lady of the house. "I've had hens with as high as sixteen chicks."

"Good gracious!" exclaimed the university miss; "I thought they only had one child at a time."

SUPERVISORS MEET.

Getting Ready for a Heavy Session.

A LIVELY PETITION FROM SELMA

Fresno Sportsmen Want the Close Season for Doves Shortened a Month.

There was a full attendance when the Board of Supervisors reassembled yesterday afternoon after a two weeks' recess. The reading of the voluminous minutes occupied a considerable time, and the rest of the afternoon was spent in "getting a good ready" for the morrow.

It is rumored that the supervisors expect to have a very large representation of ladies present when the liquor ordinance question comes up for consideration on Wednesday. At present only two petitions are on file, the original petition of the saloon keepers for repeal of the Sunday closing ordinance, and the special petition praying for immediate consideration of the claims of the saloon keepers. It is said that a petition signed by many hundreds of citizens will be presented in favor of maintaining the ordinance as it stands.

The following petition was presented by Attorney Burns of Selma and ordered filed:

To the Honorable Board of Supervisors of Fresno County, State of California:

We, the undersigned resident citizens of section 20, township 15 south, range 22 east, do respectfully petition your honorable body to attach the said section to voting precinct number one at Selma, removing the same from the voting precinct at Fowler. Our reason for asking the above change is that we live from one to two miles closer to Selma than to Fowler, and our business is at Selma. We do our trading and get our mail at Selma. To attend elections at Fowler is a day clear lost to us, while at Selma we could invariably attend to other business, do our trading, get our mail on election days, and thereby save a day from our business at home.

(Signed): J. K. Fisher, J. T. Swoop, W. R. Davies, W. C. Swoop, W. L. Swoop, S. H. Erwin, J. Sweeney, Walter Scott, W. G. Scott, W. M. Evans, G. W. Woods.

The following petition was received and placed on file after the board had heard argument from G. G. Goucher in support of it:

To THE HON. BOARD OF SUPERVISORS:—Your petitioners, residents of Fresno county, respectfully represent:

That the present game law of this state, section 626 of the Penal code, prohibits the killing of doves during each year from March 1st to August 1st;

That in the climate of Fresno county doves are matured and practically full grown by July 1st, annually, and during said month of July doves prey upon grain fields, and liberty to kill them both saves the fields and successfully protects the young doves; wherefore your petitioners pray that your honorable board adopt an ordinance suspending the close season as to doves during the present year throughout the month of July. And your petitioners will ever pray, etc.

The petition was numerously signed by Fresno sportsmen. In arguing in favor of the petition, Mr. Goucher said that in this part of the valley doves pair quite early, and the young birds were able to leave the nest by the beginning of June. He admitted that in a few exceptional cases old birds had been found sitting on nests of eggs, a second brood, as late as the middle of August, but this was so rare a case that it might be taken for granted that no injury would be done by terminating the close season for doves by July 1st.

Mr. Goucher was told to draft an amended ordinance, embodying the proposed change, for the consideration of the board.

Sheriff Scott and Recorder Clark appeared jointly before the board with a somewhat novel application. The Sheriff stated that there is a vagrant now in jail with forty-seven days to serve. The man had demanded a jury trial, and had been convicted. He is suffering from a loathsome disease, and cases of the kind are refused admission to the city and county hospital. The Sheriff continued that the man is able to get around all right, though covered with sores, and had promised to get out of the county if set at liberty. He (the Sheriff) would not take this responsibility, as he did not want to be unfairly criticised.

Recorder Clark said the District Attorney had been consulted, and the Sheriff would be protected.

Chairman Letcher thought the best thing was to let the man go, and the Sheriff departed with the tacit assurance that if the prisoner should escape he himself would not be courtmartialed for connivance.

"Old Socks" Burned Out.

The cottage of Mr. Sockley in Long Brothers' addition, one mile from town, was burned out in less than half an hour yesterday morning. No call was made on the fire department, as it was at once seen that nothing could be done to save the place. The loss is $200, uninsured.

Off for Yosemite.

A jolly crowd left this morning in two four-in-hands for the Yosemite valley and will camp at Camp Benito for several weeks. The party consists of Misses Betty and Mary Maupin, Misses Fannie, Mary and Agnes Helm, Mrs. Laura Hicks and Messrs. J. L. Maupin, E. A. Walrond and Elmo Rowell.

Arraignment Continued.

On account of the absence of the defendant's attorney, Judge Webb yesterday continued the arraignment of S. S. Culver and E. J. Boland till next Monday, at which time they will enter their pleas.

The Barbecue

Heretofore advertised to be held by the People's Party on Saturday, June 9th, in Fresno, will be postponed to some future date, to be fixed by the committee. Other meetings in conflict with the barbecue will prevent a number of prominent speakers from being present on the ninth, hence the necessity of deferring the barbecue.

Strong Dramatic Representation.

"The recital of David Copperfield by Mrs. Fenetta Sargent Haskell, of St. Louis, last Tuesday at the Southwest Tabernacle, was a strong dramatic representation. The wooing of Dora was inimitably rendered, and certain other periods stood out as classic, so intense, realistic and beautiful were they. The audience appreciated Mrs. Haskell's exceptional work."—Kansas City Press. *

THE REPUBLICAN PRIMARIES.

Results of the Election in Some Country Precincts.

From all accounts the Republican primaries passed off very quietly in the country. But few outside precincts have sent in the result of the election for delegates. The primaries throughout the county, with the exception of two or three precincts in this city, were extremely harmonious. Of course there was a friendly rivalry between the candidates for office to have their respective friends chosen as delegates, but there was a total absence of the shameless scenes and incidents connected with the Democratic primaries in past years.

The ludicrous attempts of the evening paper to report Republican politics are exciting much derision. It appears that some wags have been taking advantage of the reporter's guilelessness and filling him up with the weirdest political hodge-podge imaginable. The fake story concerning Pastor Collins, which appeared in last evening's Expositor, is a specimen of the news that is eagerly jotted down by the gullible reporter.

The results of the primaries in the following precincts were obtained yesterday:

East Fresno—Henry Miller, William Somers, Archie Grant.

Auberry—J. W. McDowell, H. A. Andrews.

Firebaugh—J. D. Castro, J. W. Schmitz.

Volcano—J. W. Lopez, William Hawkins.

Kingsburg—E. D. Hare, A. N. Anderson, Edward Russell, H. W. Ward, L. Garrett.

THE HIGH SCHOOL EXERCISES

Admission to the Opera House Will be by Ticket.

The graduating exercises of the high school will take place at the Barton opera house Friday evening, June 8th, at 8 o'clock. The address to the class will be delivered by Professor Anderson of Stanford university. His subject will be "Literature and Life." There will be music, and remarks by the President of the Board of Education, George E. Church, and presentation of diplomas to the class.

This is the fourth graduation from the Fresno high school and a class of twenty-eight will receive diplomas. These exercises are always largely attended by the best people of Fresno. To prevent the house being packed by children to the exclusion of older persons, admission is by ticket. Members of the class or of the board of education will have tickets for their immediate friends. The remaining tickets will be left Thursday morning at Riege's book store for general distribution. Tickets will not be given to children, and not more than three to any one person.

The exercises are intended for the friends of the class and for citizens who pay for the schools. More tickets are always wanted than can be supplied; those who call for them first will get them. Only as many tickets are issued as there are seats in the house. After 8 o'clock unoccupied seats will be given to any persons applying for them.

A FINE RECITAL

Given by Mrs. Haskell at DeWitt Hall Last Night.

A fair sized audience greeted Mrs. Fenetta Sargent Haskell at DeWitt hall last night to listen to an excellent entertainment, consisting of classical and humorous recitals. The disagreeable weather no doubt kept away a goodly number, who missed a rare treat.

Mrs. Haskell captivated her listeners from the start by her charming style. The various characters of her selections were portrayed by her in a very vivid manner. Mrs. Haskell is an artist of high ability, and so impressed her audience. Her recital last night was supplemented by a musical program rendered by local talent.

Mrs. Haskell will appear again this evening in a dramatic recital of David Copperfield.

A Change for the Better.

If people imagine that business of all kinds is dull or dead at the present time they would surely and quickly change their minds if they had visited the store of Louis Einstein & Co., at any hour during yesterday.

Their great five cents a yard sale of such first-class muslins, ginghams, tennis flannels, cheviots and prints as they have inaugurated on Monday could have but one result, namely, to draw a crowd; the crowd was there sure, and so delighted with the unheard of bargains offered that an endless number of packages were delivered in all parts of the city and additions. The sale will continue all of this week and there is enough stock on hand to meet any demand.

THE RAISIN INDUSTRY.

Several Good Suggestions Made by a Grower.

EDITOR REPUBLICAN:—As the time approaches when the raisin grower has to decide upon his best course for the coming season, your kind offer of "free space" becomes almost invaluable for the exchange of experiences among those who are looking for something better than present methods of handling their crop of raisins.

It seems that a combination of all the growers for protection from our rapacious masters is out of the question this year. The prune growers can combine and protect themselves; the orange grower can throw off the packers who have grown rich at their expense, but the raisin growers as a body are utterly incapable of combined action, without which no improvement can be made upon present methods, unless each individual grower, who really means business, shall start out and combine with himself to do just the best he can for himself.

All those who still believe that the professional packer and commission man can handle his business better than they can do for themselves will of course embrace the packer with his "iron clad" contract and reap, if he can, all the benefits promised him. They tell us that we are getting poor because the railroad is robbing us by demanding 1 cent freight on each pound of raisins to any town in the United States, when we are paying more than half that rate from San Francisco to this place. They don't tell us, however, how much can be saved by packing our own raisins and shipping them through our banker, or an agency that can be established here for that purpose, direct to every town through the country, and sell them at a price to meet foreign competition—with tariff reform added, if it really comes—and still leave us much more than we are now allowed.

"Over production," "supply and demand," and such large words only apply to the present management. This past year's production did not exceed one and one-half pounds to each individual inhabitant of the country. They were not consumed at once, because when they reached the consumer they were so encumbered with middlemen's profits that they became a luxury instead of a cheap and nutritious food for the million. I would have raisins put up in small parcels with the selling price marked on each, so as to average from 5 to 6 cents per pound all round. This would oblige their handling at a small profit the same as sugar, flour and other staple articles, and when the demand exceeds the supply prices can be marked up just in proportion to the "tariff protection" we can obtain.

Anyone with sufficient experience and capacity to work out a successful plan of distribution from the grower direct to the consumer, would do more for the raisin industry than all that has been done up to date. I have thought that the postmasters throughout the country who are accustomed to trade would be the proper parties to earn a liberal commission as "go betweens" between us and the consumer. The country postoffice is the place where people go, and a ten-pound bag for four bits, or a cartoon for six bits, would be sure to attract attention. With monthly returns from this source most of our money would be in at the end of the year, whereas now it is June and the end is not yet. This plan would reach the masses, but it requires altogether too much clerical work to tackle single handed.

If the second crop of grapes could be disposed of for some other use it would help raisins. I have tried an unfortified wine for cooking and druggists' use, condensed must, grape syrup and hog feed, all of which will work in a small way. The only demand for the whole crop appears to be in pure and wholesome spirits for export. The Peruvian Pisco is made from the Muscat and is highly prized in South America and Europe, but Muscat spirits are unsalable in the United States, owing to the strange flavor.

The only success I have had so far in the industry has been in the way of reducing the cost of packing as well as the size of the package. Last year I put up my loose raisins in ten-pound bags like salt or oat meal, and my layers in card board cartoons, all packed in forty-pound boxes, at an average cost of $12.50 per ton f.o.b. This year, by using a fifty-pound box and cheaper material, I will do it for ½ cent per pound all round. Of course, you get no chromo with the "vineyard layers," but you get clusters, layers and bunches just as they come from the sweat box, just as the thrifty housewife wants them. All grocers who have examined this pack approve of it as just what they have wanted. All packers and commission men have condemned it so far. It appears to me that I have struck something that will be a great saving to the grower and prove a great convenience to the consumer. Such as it is, I freely offer it to such of my fellow growers as are not afraid to cut loose from present methods, where, after deducting freight that has to be paid in any case, the grower only gets a little less than half what the raisins sell for in the east. I can show this by an account sales of a lot consigned by me to one of the largest packers here.

Mr. A. Newhouse of Messrs. L. Einstein & Co. has kindly offered to show this pack to any grower interested, so I have furnished him with a box of each with the details of expense on the cover, and will be glad to hear from any one who requires further information, or can suggest any improvement tending to either cheapness or convenience. If we can hear through the press from others who have been working in the same direction we may yet save ourselves in spite of the hungry crowd that are enriching themselves at our expense.

THE INDUSTRIALS.

They are Now Marching Through Kern County.

Sheriff Kay and his deputies dislodged the industrials from their captured train early Sunday morning and the trains were again run on regular time. No arrests were made, but the men were started off on foot.

They camped at Delano Sunday night and left there yesterday morning at 9.30 o'clock, expecting to arrive in Bakersfield last night, where Mrs. Smith has been for the past few days.

The "All American" wing of the army passed the Barker division while they were in possession of their captured train, but it is expected that the two divisions will meet at Bakersfield.

Barker's men are nearly barefooted and in a very ugly mood. When they arrive in Bakersfield they expect transportation by rail to Mojave. At Delano the citizens would not contribute anything to the army and the sheriff was compelled to purchase something to eat for the men. The men are secretly procuring arms from some source and if sufficient weapons are obtained there will probably be trouble.

Deputy Sheriff Packard had considerable difficulty disarming one of a Winchester rifle at Delano. Both divisions are now under the constant surveillance of the sheriff of Kern county.

WHAT MAY BE DONE.

The Raisin Question From a Commission Packer's Standpoint.

EDITOR REPUBLICAN:—A meeting of the packers having been called to take into consideration some effective means to secure concerted action in marketing this season's product of raisins, it does not seem out of place to make it a matter of public discussion how such concerted action may be most effectively secured.

There are some conditions fundamental. One is a thorough appreciation of its importance; another a genuine desire on the part of all packers and growers to effect such an organization as will render it certain that prices and grades will be maintained. Doubtless if less firms were competing for the privilege of serving the people in this important matter, the problem would be greatly simplified, and if all private packing by small vineyardists and all private consignments to eastern brokers could be abandoned, the matter would be still farther simplified.

It would seem that with the concession by the packers, in which a practical reduction of 20 per cent from the cost of packing is made, this latter menace to success might be removed, and all might place their crops in the hands of some one of the responsible firms, either commission or co-operative, that have the large size Porteous stemmer, and have well established eastern connections for successful marketing of raisins, and in this way render it more likely that the whole output of raisins can be brought under the control of a central committee of growers.

The principal commission packers have put into their contracts an agreement that in case 85 per cent of the raisins, or any other per cent that may be agreed upon, can be thus controlled they will give bonds not to sell or grade otherwise than as such committee of growers may direct. The Fresno Home Packing Company sincerely desires that such organization of growers and packers may be effected as will render it certain that grades and prices may be kept, and ruinous competition may be for the future averted.

If the giving of a certified check of $10,000 as a guarantee of good faith is the best provision, our company will cheerfully furnish it. The end, however, which we seek is not to be attained by attempts to crowd from the field any who are legitimately engaged in the business of packing raisins, nor by claiming superior zeal or superior ability to place large sums of money which may be needed to harvest their crop where it cannot be used, as the putting up of large certified checks as a guarantee of good faith would do. Nor will the claim of special zeal by firms assuming to pose as special friends of the growers, serve to accomplish this much desired result. A frank confession that in all the leading companies there is about the same degree of earnest desire to act honorably and do justly, is the best preparation for the successful union of our forces to accomplish the end sought.

A good central committee to act impartially on behalf of the growers and supervise the grading, with the power to close any packing house that is not doing honest work, and to take possession of the raisins of any servant of the people who is false to his contract agreements, will be the best guarantee of good faith. No firm can afford to do violence to the public demand for concerted action. Whether the bond given is large or small, there must be some honor coupled with the bond; and a part of this honor will be shown by conceding to rival firms the same degree of integrity and sincerity of purpose that each claims for itself; and in not wishing to pose as the special and peculiar and only friends of the raisin grower.

The fact must also be recognized that those who buy raisins will not join any combination. Theirs will surely be a free lance method of procedure. They will assume the right to purchase as cheaply as they can and sell when they please. Capital is timid, and will assume purely selfish grounds, regardless of what interests will suffer. We can only count on co-operative, private and commission packers to stand in line. It is well for growers to take note of this fact. THE FRESNO HOME PACKING CO.

A GERRYMANDER.

The Fifth Ward to Be Transferred to the Third District.

It was freely rumored among the politicians yesterday that a bold effort is to be made to prevent the election of a Republican in the First supervisoral district by withdrawing the ninth and tenth precincts of the Fifth ward and placing them in the Third district. The petition which seeks to accomplish this has not yet been presented to the board of supervisors, but is being circulated for signatures in certain quarters

The Fifth ward gave a majority for the Republicans at the last election, and it is believed this majority has been increased since then. Whether its transfer to Wickersham's district would affect the Republicans to the point of defeat is by no means certain. It is certain, however, that such a step if carried out would be political jobbery of the rankest kind.

The transfer would also move Joseph Spinney, the Populist nominee for supervisor from that district, out of his district. Spinney has already declared that if anything of this kind is done he will move back into the First district and make his residence there, thus circumventing the gerrymanderers.

It is claimed by the friends of C. W. Garrett, candidate for the Republican nomination for supervisor from the first, that his chances would suffer more than those of any other candidate by the transfer. He claims the six delegates elected in the Fifth ward and six more in the country, making twelve out of nineteen. If the Fifth ward were withdrawn, his strength would be decreased by six votes.

Other candidates dispute Garrett's estimate of his strength, however. Among the Republicans who are candidates for supervisor from the First district are H. Madsen and W. B. Banister of Central colony, I. Tielman of Madison and S. B. Bresee of Fresno.

If the scheme is carried out it will be done by the votes of Letcher, Sayle and Butler, Democrats, and Foster, an old-time Democrat, who has been acting with the Populists. The pretense on which the petition will probably be presented is that the precincts named represent the region "across the track," in which there is a large floating, illiterate and disreputable vote, and that the measure is in the interest of political purity.

"THE IDEA."

While Not a Brilliant One, It Was Funny.

Hallen & Hart and a strong company of specialty artists excited the risibilities of a fair sized audience at the Barton last evening in their new musical comedy, "The Idea." As usual in farce comedy the title is a misnomer, as there certainly was not an idea in the play so far as a plot goes. However, as a musical potpourri it comprised a very entertaining conglomeration of vocal oddities, sensational dancing and a few jokes that have not grown hoary in service. The parodies on popular songs were what usually comes with all farceurs, but rather better than usual.

Frederick Hallen and Joseph Hart make an exceedingly clever team, and they have lost none of their original art as fun provokers. Though seriously handicapped by the name, Miss Lydia Yeamans-Titus played favorite last evening. She sang well and impersonated better. The remainder of the support were also acceptable.

MONTEREY-FRESNO RAILROAD

Ground Will be Broken on Independence Day.

Col. A. W. Jones, president of the Monterey & Fresno Railroad Company, has returned from the east. He arrived in Monterey last Saturday evening and was given an enthusiastic reception. In an interview he spoke as follows:

"The building of the road from Monterey to Fresno is now assured. Everything pertaining to the financial affairs has been settled, and there only remain a few preliminaries to be arranged for. There is a hitch here and there along the proposed route in the matter of right of way, some skeptics declining to grant it. But that will soon be adjusted. Arrangements have so far progressed that ground will be broken for the railroad on July 4th.

Vice President H. A. Greene said: "In July, 1895, the Monterey and Fresno road will be completed. We cannot state positively when we will commence the Fresno end of the line, owing to local differences as to the location of the depot, but that may soon be adjusted."

Colonel Jones and Vice President Greene left Sunday afternoon for San Francisco, where they will call a meeting of the board of directors. The news of the intention to begin work on the road at an early date will be received here with great satisfaction.

THE FREE KINDERGARTEN

Will Hold Its Closing Exercises Next Saturday.

The Fresno free kindergarten will hold its closing exercises next Saturday afternoon at 3 o'clock at Kutner hall. The free system has been a grand success in Fresno and the little children will show what skill they have acquired in the institution in the line of sewing, pricking, weaving and singing.

The good that the community derives from such a system is invaluable. As a reform movement it is the cheapest and best. Hon. William E. Sheldon says on the subject: "The gospel of peace, purity and spiritual culture for every child and mother is found in the kindergarten system."

All are invited to the exercises. The admission is free, so that the citizens may see what good they have done to some not so richly blest, and that others may be induced to aid the cause by their generous support.

Physicians Pleased With Fresno.

A special train consisting of six Pullmans and one baggage car stopped half an hour at the depot yesterday morning. The train contained the eastern delegation to the medical congress at San Francisco. In the party of 150 persons were a number of ladies. The original route planned from Chicago was over the Colorado Midland, but owing to a washout the route was changed to the Santa Fe. During a short stroll the physicians expressed themselves as greatly pleased with the fine air, clean streets and general aspect of Fresno. The train left for San Francisco at 11 a.m.

The Athletic Club.

The Athletic club will hold an important business meeting this evening. The nomination of officers will be among the most important business. There has been quite a number of business men spoken of to fill the president's chair. Among those most prominently named are George E. Church, H. H. Welsh, Harry Doble, E. C. Adams, A. E. Snow and William Glass. A good set of energetic officers will do much to advance the interests of the organization.

A LARGE SKIN GRAFTING.

Three Men Give Up Healthy Cuticle to Save the Life of Another.

Two heroes in humble life Friday evening bared their bodies to the surgeon's knife at the Samaritan hospital and allowed Dr. Little to take as much skin as he needed to save the life of Henry Millman, 44 years. The names of the two men are Joseph Connell, 28 years, and William Fricke, 28 years. This was the second skin grafting on Millman.

Eight weeks ago Henry Millman was seriously burned by falling on a stove in a shanty at Eighth street and Alleghany avenue. For a time his life was despaired of. He partially recovered, but a surface of about 140 square inches on his body was almost burned to a crisp. As the ulcers did not heal, the doctors decided to graft new skin over this large surface of Millman's body.

The sufferer's younger brother, John Millman, 28 years, volunteered to have as much skin taken from his thigh as was needed to cover the sore on his brother's side and breast. About 60 square inches were required, and a week ago the skin from John Millman's thigh was grafted on his brother's side.

Speaking of the skin grafting, Dr. Lester said that it was the biggest thing of the kind ever done in the hospital, and as the injured man's side was healing there was ground for believing that the second grafting would be a success.

Friday evening 20 square inches of skin were taken from the left thighs of Connell and Fricke, 14 inches being cut from Fricke and 6 from Connell. The skin was transferred from the blade of a carver by which it was removed direct to Millman's body, on which is an exposed place of about 70 square inches. Connell and Fricke seemed quite cheerful while their skin was being removed.

Both said that they were ready to submit to a further skinning whenever Dr. Little chose to complete the operation.—Philadelphia Press.

Recipes For Shoe Dressing.

Here are two recipes for making a dressing for shoes: Take 2 drams of spermaceti oil, 3 ounces of good molasses and 4 ounces of finely powdered ivory black and stir them together thoroughly. Then stir in half a pint of good vinegar, and the dressing is ready for use. It gives a bright, clean surface and makes the shoes look almost like new. The second dressing is for rainy weather and is said to make the shoes waterproof. Take an ounce of beeswax, an ounce of turpentine and a quarter of an ounce of burgundy pitch. Put them into half a pint of cottonseed oil and melt together over a slow fire, being careful that the mixture does not take fire.—St. Louis Post-Dispatch.

THEY COOKED UNSOAKED RAIN.

And by the Aid of Lightning and Snow Made a Satisfactory Meal.

"Perhaps one of the most peculiarly prepared luncheons ever laid before hungry people was one which we had when we were snowed up in the theater of a small western town," said a theatrical man to a reporter. "Upon this night, in the brief interval after the people left the theater, while we were dressing to go to our hotel, a terrific snowstorm, such as you can only find in the west, came up. The snow drifted against our doors and all about the streets, so that we had to remain all night in the theater. Of course we got hungry, as actors will sometimes do, and we began a search for something eatable.

"We prowled around the property room and were about to give up in disgust when one of the company struck a box of beans, which were used to imitate the sound of rain. By shaking the box a stage rainstorm could be produced. We took this 'rain,' as the profession is pleased to call it, but saw no way of cooking it. Some one suggested that the 'thunder' might be a good thing to cook it upon, in lieu of nothing better. The 'thunder' was a sheet of tin or iron which was shaken to make the roar of heaven's artillery. We bent the 'thunder' so that it would hold the beans, but were at a loss for means for producing heat. Our property man suggested that we use 'lightning,' a powder of lycopodium, used for making flashes upon the stage, for the fire. We found quite a lot of this, and with the addition of some 'snow'—little bits of paper used to represent the beautiful—we started quite a fire and succeeded in cooking the beans, which we ate with a relish. Resolving into stage parlance, we had used 'thunder,' 'lightning' and 'snow' to cook a lunch that consisted of 'rain.'"—Pittsburg Dispatch.

Modern Woman as a Candy Buyer.

The powerful social movement in the direction of the freedom of women is being felt in this community. Women are "rising in their might" and "viewing with alarm," and all that such things imply. They are beginning to assert their rights. I saw one of them who had just sat spellbound beneath the fervid oratory of Miss Maude Banks when the latter "shook off the yoke of woman's slavery in peopling the world" enter a candy store and fix her determined gaze upon the contents of a glass case.

"Those are 60 cents a pound, madam," said the candy girl, "and those are 45, and those are 50."

"Give me three of these, and two of these, and three of those," said the lady, "and, mind you, I want just exactly those I've pointed out, and they are not to be more than 10 cents, or I won't take them."

When the customer had departed, the candy girl, who was still a self satisfied slave, leaned against the case and fanned herself with a paper bag.—New York Herald.

A Desirable Place.

We were seated in a fairly filled third class carriage not timed to make a stoppage for an hour or so, and during the first half of this period one of the passengers, a very excitable and withal voluble individual, loudly inveighed against things in general and the places he happened to have visited in particular. All at once a quiet and sedate old gentleman, who had up to then sat silently in one corner, remarked:

"How would you like to live in a place where no one drank any intoxicating liquor or even smoked a cigar?"

"It would be excellent," replied the grumbler.

"And where every one went to church on Sundays?"

"That would be a delightful place."

"And where no one stole or forged or cheated?"

"But such a place is impossible. Tell me, where is there such a perfect place?"

"You will find it in any of her majesty's prisons," was the quiet reply, and the grumbler was silent for the remainder of the journey.—London Tit-Bits.

Farragut's Death.

Admiral Farragut's death was due to the selfishness of a woman, Rev. James J. Kane, chaplain of the Brooklyn navy yard, said in a recent lecture. The admiral and his wife were coming from California, when a woman occupying a seat in front of them in the car opened a window. Admiral Farragut was ill, and the strong draft of wind which blew directly upon him chilled him. Mrs. Farragut asked the woman courteously if she would not kindly close the window, as it was annoying to her husband. The woman snapped out: "No, I won't close the window. I don't care if it does annoy him. I am not going to smother for him." Admiral Farragut thus caught a severe cold, which resulted in his death. A few days before the end came he said, "If I die, that woman will be held accountable."

Care of Curtains and Portieres.

When any cleaning or sweeping is in progress, the heavy curtains and portieres should be removed and after being thoroughly brushed and shaken should be allowed to hang in the air until the rooms are cleaned and ready for their return. Heavy hangings will absorb the odor from cigar smoke or from any food which may be cooking, and the greatest care should therefore be taken that they be kept well aired. The doorway curtains may be so easily removed and placed in position again that there should be no excuse for any unpleasant odor being attached to them.—James Thomson in Ladies' Home Journal.

THREE LITERARY PARABLES.

And at the Ending Thereof Came the Turning of the Worm.

"Now, Barabbas was a publisher."

A butcher calls at the door and offers a fine sweet ham, neatly cased. The mistress agrees to buy it, saying, however, that it is against her rules to pay for any article until the whole of it is eaten. The butcher, knowing that there are many carts on the road laden with hams just as finely cured as his, ruefully accepts the terms, and when a price is settled departs.

After keeping the ham for two years in a dusty, musty cellar the housekeeper returns it to the butcher soiled and stale, saying that, after all, her family prefers fresh meat, and she has decided not to cook the ham.

One spring morning a farmer knocks at the kitchen door of a city house, with a basket of freshly laid eggs for sale. The mistress expresses delight at obtaining them, declaring, however, that it is her invariable custom to pay for articles after they have appeared on her table and then only such a price as she thinks fit. Expecting an early settlement under those conditions and being in need of cash for the interest on the mortgage on his farm, the man accepts the lady's terms and departs. Week after week and month after month go by, but no payment is made for the eggs. When he calls at the house to inquire, the maid informs him that her mistress bids her say that the great variety of seasonable articles of food has prevented the use of the eggs, but that she hopes very soon to find a place for them on her menu. In the autumn the farmer is surprised to have the maid hand him the basket, saying that as the eggs have lost their freshness and are uneatable her mistress returns them, with thanks for the opportunity for purchasing and hopes that the farmer will call whenever he is town and allow an examination of his stock.

The third of these true parables relates to a green grocer and some crisp blanched lettuce which he is requested to leave for the housekeeper's examination at her leisure. After a time a messenger leaves a package at the green grocer's shop. On opening it he finds his lettuce, wilted and bruised, and these consolatory words, "Owing to no lack of merit, but because lettuce is not exactly available for my table, I return these heads, with thanks for the opportunity for examining them."

And here endeth the parables and the turning of the worm.—Harriet Cushman Wilkie in Writer.

He Didn't Want to Wait.

A man with a whip in his hand and muddy cowhide boots upon his feet tramped up into City Clerk Allen's room and demanded. "Can I get married here?"

"You can take the first steps toward it."

"First steps? I have taken the first steps for the last six or seven years, and now I'm going to finish it up. I want to be married right off. My gal is down there holdin the horses, and if you'll marry me I'll hitch 'em, and she'll come up. Hey?"

"You will have to get published and wait awhile before you get married."

"Wait! Wait! By the sweet apple tree, I won't wait. Jane's been telling me to wait all these years, and I'll be cussed if I'll wait. Wait! Pooh! See here, young fellow, if you don't marry me, I'll have you discharged. I'm 40 years old and my own man. I won't be fooled with."

The clerk finally explained to the man that the law required him to wait, and he consented and was published.—Lewiston Journal.

Birds Guided by the Stars.

Did you ever venture any conjecture as to how migratory birds manage to keep up their flight in a due north direction after night? It has been proved that on clear nights they often "wing their northern flight" in the rarified atmosphere three miles above the earth's surface. This being true, it is clear that guidance by the topography of the country is out of the question. How, then, are they able to keep their beaks pointed toward the north pole? The scientific ornithologist comes to the rescue with the declaration that they are guided by the stars, and in support of his opinion cites as evidence the fact that when the stars are obscured by clouds the birds become bewildered and at once seek the ground.—St. Louis Republic.

Less than one-fifth of the white kinds—which number 1,194—are fragrant, 77 of the 951 yellow kinds, 84 of the 823 red kinds, 31 of the 594 blue kinds, 13 of the 308 violet blue kinds and 28 of the 240 kinds with combined colors.—Philadelphia Press.

A "CONDITIONING" HOUSE.

An Institution Which Looks Out For a Square Deal In Weights and Measures.

The state department has received from the American consul at Bradford, England, an account of the "conditioning" house owned and operated by the municipality, which is the only one in England. A conditioning house is an establishment in which the true weight, length and condition of articles of trade and commerce are scientifically determined. These are matters regarding which there has always existed a difference of opinion between British exporters and American importers.

Only recently one of the largest exporting houses in Bradford was compelled to allow an American customer a 6 per cent discount because of the shrinkage in a large invoice of goods, though it was alleged by the exporter that it entirely obliterated the profit of the transaction. All this may be prevented by the importer of either raw material partially manufactured or wholly finished goods demanding that the product be accompanied by a certificate from a legally authenticated conditioning house.

The Bradford house being worked under parliamentary act, all certificates granted are legal evidence in a court of law and are accepted as absolutely correct as to weight, condition and designation of goods on the date they passed through the house.—Washington Post.

CALL FOR Republican County CONVENTION,

DISTRICT AND TOWNSHIP Conventions.

The Republican County Central Committee of Fresno County, California, representing the Republican party, a political party which, at the last general election held in said county, polled more than three per cent of the entire vote of the county by virtue of the customs and usages of the Republican party, and by the power vested in said committee, at a meeting held in the City of Fresno on Saturday, May 19th, 1894, adopted the following resolutions:
